THOUSANDS DYING ON FIELD OF BATTLE

**Twenty-Seven Thousand Slaughtered
at Laio Yang in Two Days.**

**Half a Million Men Engaged Make it the Greatest
Battle in History.**

THE THIRD DAY REVEALS NO CHANGE

Rome, Sept. 1.—The Liao Yang correspondent wires that the total losses at Liao Yang thus far are twenty-seven thousand.

The Russians lost fifteen thousand killed, wounded and taken prisoners and also had forty-five cannon destroyed, and sixteen cannon, forty thousand rifles and two hundred wagons captured, and two hundred wagons destroyed. The Japanese losses are estimated at twelve thousand killed and wounded.

GARRISON HURRICANE.
St. Petersburg, Sept. 1.—General Stoessel reports that the Japanese made assaults on the fortress of Port Arthur August 23-26, but were repulsed each time. General Stoessel states that the garrison received the congratulation of the czar on their bravery with a loud hurrah, and adds: "Your majesty's message doubled the forces defending Port Arthur. From today with czar's help all the assaults will be repulsed."

10,000 JAPANESE ADVANCING.
Mukden, Sept. 1.—It is reported here that 10,000 Japanese are advancing from the northeast. The report cannot be confirmed.

BATTLE STILL RAGES.
Tokio, Sept. 1.—The battle of Liao Yang is still proceeding. No result as yet has been obtained. Official dispatches sent Wednesday say that neither side has realized any visible result.

LIVING ON BISCUITS.
London, Sept. 1.—The Exchange Telegraph company's Rome correspondent wires that an official telegram has been received from Port Arthur reporting that the Russians had seventeen guns dismantled during the siege, and that the garrison is living almost entirely on biscuits. The fortress can hold out some time, however.

CROSSING ON PONTOON BRIDGES.
St. Petersburg, Sept. 1.—Gen. Kuropatkin's army is crossing the Tatise river to the east and north of Liao Yang. This division has crossed on pontoon bridges and others are now following.

GEN. STACKELBERG WOUNDED.
London, Sept. 1.—Renter's St. Petersburg correspondent reports that news has reached there that General Stackelberg was wounded at Liao Yang Wednesday, but remained on fighting and will live.

TOKIO'S LATEST NEWS.
Tokio, Sept. 1.—News reached here this evening that the Russian right and center, defending Liao Yang, are retreating with the Japanese in pursuit.

GEN. KROSEVSKI WOUNDED.
St. Petersburg, Sept. 1.—An official message from Liao Yang announces that Gen. Krosevski, commanding a portion of the Russian fighting line was seriously wounded yesterday.

THURSDAY'S BATTLE.
Liao Yang, Sept. 1.—The Russians made repeated bayonet advances in the road directly south of Liao Yang Tuesday, where the Japanese approached from Saupushin and Tao, shelling the positions in the Russian lines until 4 o'clock in the afternoon, when the engagement, which was general throughout the south and southeast, narrowed to the main line.

The Japanese stubbornly attempted to occupy a round-topped hill, which was literally shelled by the Russian shells, making repeated attempts the entire day where apparently it was impossible for anything to live. The cannonading continued from this point to the vicinity of Wungpoot until this evening without apparent advantage to either side.

The varied casualties here include one Russian war correspondent wounded, and also 25 Chinese women from Chiao-fantun, whom Dr. Westwater, the dis-

tinguished missionary, is caring for, in the Chinese Red Cross refuge. The day's developments show that the Russians are prepared for all emergencies. Considering the scale of the day's operations, the number of Russians wounded is apparently small, while the Japanese losses are believed to be great, especially where they were repulsed on the south road.

RUSSIAN VERSION.
St. Petersburg, Sept. 1.—Some interesting details of Tuesday's battle are furnished by Russian correspondents, from which it appears that two regiments of Japanese at daybreak attempted to capture the batteries of the Sixth Artillery Brigade, located on the extreme left flank of the Russian army. The attempt was only discovered in the nick of time.

Some of the Russian troops fought continuously for thirty-six hours. The concussion and the roar of the guns shook the windows at Liao Yang, though the artillery was six to eight miles away.

Nemirovich Danchenko, the famous Russian war correspondent, describing the battle, says: "The enemy, drunk with their former success, attacked from three sides, like madmen. When they were hurled back fresh troops of which they seemed to have an inexhaustible supply, were sent forward."

M. Danchenko says the combatants had about 900 guns on each side, and adds:

"It was our first victory. The enemy was beaten back everywhere, many of his batteries were destroyed and in some cases his infantry was put to rout."

500,000 MEN ENGAGED.
Liao Yang, Sept. 1.—The battle was resumed yesterday earlier than it began Tuesday.

Over 500,000 men and 1,300 guns are engaged on both sides. Practically the whole Russian force is on the firing line.

Liao Yang, Sept. 1.—The Russians have effected an advance along the railway to the southward.

SITUATION AT PORT ARTHUR.
Chiefs, Sept. 1.—The advance positions of the Japanese before Port Arthur are now near Fort No. 5, on the east at Palichang, on the north, and at Hukiatun and Vanktovang on the west.

Chinese who left Port Arthur on Aug. 28, say that neither side was then occupying Fort No. 5.

The fort at Tungkia Tasun was destroyed by the Japanese who proceeded to mount guns on an adjoining hill.

The reported presence of Russians in the Hsichan hills has been confirmed.

TAKEN TO MUKDEN.
Mukden, Sept. 1.—Over 200 Japanese captured at the battle of Liao Yang passed through here on a train.

TERNS KUROPATKIN'S POSITION.
London, Sept. 1.—The Exchange Telegraph Co. announces that a telegram has been received in official quarters in London that General Kuropatkin succeeded in turning General Kuropatkin's position from the north.

ALLEGED TO BE CONFIRMED.
London, Sept. 1.—The Exchange Telegraph Co. reports that official confirmation has been received in London of the report that the Russian right and center are in full retreat, with Generals Oka and Nodzu in pursuit.

CAPTURE FORTY-SIX GUNS.
Liao Yang, Sept. 1.—The town has been filled with joy owing to a report that the Russians took forty-six cannon yesterday.

The Japanese assault on the Russian center was desperate in the extreme. The Japanese losses were very great.

INDEPENDENT MEN TO QUIT TONIGHT

**Butchers Union Intent on Fore-
ing a Meat Famine.**

1,500 Independent Butchers Will
Walk Out at the Close of
Today's Work.

A RIOT IN EAST ST. LOUIS.

Chicago, Sept. 1.—There has been no trouble at the stock yards this morning. Fifteen hundred independent butchers will quit this evening. Another plan for a settlement of the strike has been brought to Donnelly's attention. This is for officials of the five union railway employees to take to the packers a basis of settlement.

RIOT IN EAST ST. LOUIS.

East St. Louis, Sept. 1.—The packing house strikers attacked a street car near the stock yards this morning because of six persons on the car three of whom were strike breakers. Many shots were fired and a riot call was turned in. One man was seriously injured. Sheriff Thompson was called out and twenty-five men with riot guns now patrol the stock yards district.

LIVELY TIME

**SHOOTING REPORTED OVER IN
CALLOWAY COUNTY.**

A lively scrap is said to have taken place over in the edge of Calloway county last Saturday night near Brown's Grove, in which it is said that several parties engaged in a general knock down, says the Mayfield Messenger.

It is also reported that Luther Murdoch was shot in the hip, but not seriously hurt. Dr. Crawford cut the ball out and says he will recover. All of the parties have their examining trial in a few days.

MISTREATED A GIRL

**CHICAGO JUDGE GIVES A WRETCH
LIFE SENTENCE FOR THIS AND
HIS WIFE ONE YEAR.**

Chicago, Sept. 1.—Alton M. Carson has been sentenced to imprisonment in the penitentiary for life, after conviction of mistreating Mable Vahdel, 14 years old. His wife, Violet, also was found guilty by a jury in Judge Keenan's court, and sentenced to a year's imprisonment.

The conviction and imposition of the severest penalty on Carson came at the end of eight days' trial. He previously had been guilty of attacking another young girl and sentenced to fourteen years' imprisonment. His wife also was convicted and given a like sentence.

MINISTER DEAD.

New York, Sept. 1.—Dr. Thomas Herran, who represented Colombia at Washington for several years up to the time of the Panama incident, died last evening at Liberty, N. Y. He had been ill for some time and went to Liberty in the hope that a sojourn there would aid in the restoration.

The attack was sustained mainly by the Eighth Siberian regiment. The fighting at Wafangou can not be compared with what occurred today. Shells shrieked over the town from early morning. People who occupied positions on house-tops saw a magnificent spectacle. Fire rain has begun to fall.

CROSSED THE RIVER.

St. Petersburg, Sept. 1.—The report that the Japanese under General Kuropatkin crossed Tatise river is confirmed in an official dispatch from general Sakharov. After fording the river the Japanese advanced towards Liao Yang in two bodies and fierce fighting ensued between the leading ranks of Russians and Japanese.

St. Petersburg, Sept. 1.—Further dispatches from Liao Yang confirm the reported capture of forty-six Japanese guns, which were brought up to the railroad station, where Gen. Kuropatkin's train was standing.

HELPED BUILD THE SHOPS IN PADUCAH

**Capt. T. A. Johnston Dies in
Garrison, Ky.**

Was an Uncle of Mr. W. H. Kirby,
of the City, and a Promi-
nent Man.

BURIAL WAS AT CARLISLE, KY.

Captain T. A. Johnston, a railroad man known from one end of Kentucky to the other, and one of the men who built the railroad shops in Paducah in 1884, died a day or two ago at his home in Garrison, Ky., from Bright's disease. He had been ill for some time, but his condition was not regarded as serious until a short time before his death.

Captain Johnston was an uncle of Mr. W. H. Kirby, of the Palmer Transfer Company here, and Mr. Kirby returned today from Carlisle, Ky., where he attended the burial. The deceased was 62 years old and leaves only a wife.

Years ago Captain Johnston and Mr. Kirby came to Paducah and assisted in putting up the shops here. They also built fifty miles of the Illinois Central, from Dyersburg to Covington, Tenn.

Captain Johnston in later years did some of the most important railroad work in Kentucky, and was up to the time of his death in the employ of the Chesapeake & Ohio.

That road and the L. and N. furnished the funeral party a special train from Garrison, to Carlisle, Ky., and the funeral was largely attended.

Captain Johnston is remembered by many people in Paducah, especially the railroad men, and those with whom he was brought in contact when engaged in building the shops here.

TOO MUCH WHISKEY

**CAUSED JIM MAGNER TO BE
ADJUDGED INSANE.**

Jim Magner, the blacksmith, was this morning tried before County Judge R. T. Lightfoot and adjudged insane by a jury.

Magner had been drinking a great deal of late and when he drinks gets crazy. He has been in such a nervous condition of late that his physicians think he is mentally unbalanced.

Magner treated the matter with much amusement. He laughed at the jail this morning and said it was the first instance he ever observed where a man was sent to the asylum for lunacy for simply getting drunk. He says he will be out again shortly. Magner seems rational and will probably be released at the asylum.

OCTOBER 1ST

**IS THE DATE FOR W. J. BRYAN
TO BEGIN SPEAKING.**

New York, Sept. 1.—Chairman Tom Taggart, of the Democratic National Committee, has received word from William Jennings Bryan that he will go on the stump for Judge Parker by October 1.

The family that has coarsened to move six times a year seldom moves in good society.

Vincennes at Clarksville.
Henderson at Hopkinsville.

The Redskins and Sips Water Parasites got into a tangle at Wallace park yesterday.

Stated briefly the contest was as follows:

In the fourth inning O'Connor hit to Crotty who made a bad throw. O'Connor was sacrificed to second by Haas and Hughes took a look at three oyster separators. Kling hit for two bags to right and O'Connor trotted in, tallying one run. Richards hit to Bateman and was blocked at first.

Paducah followed and made two runs. Powers hit hard to Richards, who let it get by. Crotty singled to left and Powers, who had stolen second, went to third. Harley hit to O'Connor, who made a bad throw. Powers and Crotty scoring on the error. Brady popped out to Richards and Bateman failed to hit one out of three. Gerard let his optics do the work and Lally got one in the left arm and walked to first. Potts popped out to Hughes and retired the side. Two runs.

In the fifth inning the Parasites took it this way: Larson hit to Crotty, who threw to first. Lally muffed the throw. Rutledge hit to center and Crangle got to first on Bateman and Gerard's misplay after his fly, which was dropped. Shannon hit to Crotty, who threw wild in home. Larson and Rutledge scoring. O'Connor hit to Bateman, who threw Crangle out at home. Haas hit for two bags and scored. Shannon, Hughes went out from short to first and Haas was left on second by Kling's strike-out. Four runs.

There is where the fans took a back seat and let the out get their tongues. Land went to the plate and retired from Richards to Hughes and Powers popped out to Hughes. Crotty walked and made the circuit on a wild pitched. Harley fled out to Larson and retired the side. One run.

In the sixth inning the Parasites failed again. Richards flew out to Gerard and Lar did Crangle, tallying one run, and here Brady took to the woods.

Brady took the sphere and worked admirably. Shannon popped out to Bateman and O'Connor missed three.

The next inning it was a goose egg for Cairo, but Paducah in the seventh took a few on and did something.

Potts waited and got his. Land hit to Richards, who forced Potts out. Powers hit safe and Crotty reached first on Hughes' error. Harley singled and Land, with Powers, scored. Brady hit to Kling and reached first on a fumble. Bateman forced Brady out from Hughes to Richards, but made safe on slow return of ball. Gerard hit safe

and runs began tallying. Until this time four runs had been made and it looked like a "pipe." Lally retired from short to first and the Parasites took to the stick.

They failed to do anything, but in the eighth the Redskins rallied again, knocking the deal. Potts hit for two sacks and Land for three. Potts scoring. Powers hit to Richards who fumbled. Land scoring. Powers stated to steal and Shannon, who had taken Rutledge's place, catching, threw wild. Powers reaching third. Crotty hit hard to right and Powers came in home on put out. After this the Parasites retired their side.

In the ninth the Parasites scored one. O'Connor went out from second to first and Haas popped out to Potts. It seemed easy after this, but Hughes hit for one bag again and sent the fans' hearts to going. Kling hit for two bags and Hughes scored. Richards failed to connect and retired the side.

Baseball Notes.

Patrons of the game should not undertake to assault or mistreat an umpire. He does the best he can, and does not make one-tenth the errors that the players make, although he has more chances. Umpire Zinkins is a good umpire and the only one who has stuck through the season. Three times he has resigned on account of the way fans over the league abused him, and three times did the league refuse to accept his resignation.

Rutledge Earl a hand yesterday and in the last of the fifth inning retired from the game. Shannon came out of center field and caught the game out. Wilder went to right field and Haas from right to center field.

Yesterday was a banner day in heavy hitting.

Eddie Powers says he doesn't live in Cairo any more. "Paducah is the town for me," he declared, and "I have passed Cairo up."

Potts yesterday was forced to see and base by a hit of Land to Richards, who fumbled and by the time he got the ball Potts was on second. Richards had secured the ball and rushed to the base just as Potts stepped on

he pushed the runner off and Zinkins called Potts out. This caused the fans to rush out on the diamond after Zinkins, but officers were on hand and quieted the threatened disturbance.

Crotty had three errors but one of them was excusable. The others made were by a wild throw to first and letting a bad bounce grounder go over his head and through his hands.

Bonno was loudly cheered at the park yesterday when he walked across the diamond.

Yesterday few sacrifice hits were made, the game being a "hit and run game."

Bluck Freeman's hand is better and he says he thinks he will be able to pitch by Sunday. With Freeman, Goodwin, Bonno and Bralhe, we ought to take a few games.

Mr. Ben Weille, while away, saw Brocket pitch for Buffalo, N. Y., against Jersey City. He says the former Cairo pitcher is in good form, and won his game, allowing only three hits. He did not like it up there at first, but is now well pleased, and sent his regards to all the Kitty league players and patrons.

Goodwin did not arrive yesterday to cause Captain Wilkerson would not let him leave until catcher Eddie Brady showed up to don a red uniform. Brady arrived yesterday and caught for the Redskins and Wilkerson turned Goodwin loose. Goodwin stated Sunday that he would like to join the Redskins to help out in the pennant race.

SEVEN-FOOT VEIN

Nortonville Coal Co. Makes Another Strike.

Vein of Coal of the Finest Quality
Discovered at Nortonville
Yesterday.

The Nortonville Coal Company, in which Paducah men are largely interested, yesterday struck a new vein of coal, seven feet thick, and of the finest quality.

A number of fine veins have been discovered since the company began operations, but this is said to be the best and one of the largest yet found, the quality being equal to the best production in the state.

The company is doing a big business, and Nortonville is now one of the liveliest, most thriving places in the state for its size, and is growing rapidly.

THE REGISTRATION

THOSE WHO MOVE AFTER SEPTEMBER 9 CANNOT VOTE.

Secretary Thomas L. Walker, of the Republican State Campaign Committee, at Louisville, has sent out notices to all Republican county chairmen, and a warning to be given to Republicans, that all persons who move out of the precinct in which they are now living after September 9 will not be allowed to register, and will lose their vote in November.

The state law specifies that a person must live in a precinct sixty days before the election in order to be allowed to vote.

The dates of registration this year are October 9, 10 and 11, throughout the state, except in Louisville, where registration will be held only on October 9 and 10.

HEALTHY MOTHERS.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boeche's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any long, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles, 25c; large size 75c. At DuBois, Kolb & Co.

THE NEW STATIONS NOW IN OPERATION

Paducah Today Has Splendid
Fire Protection.

Fire Chief James Woods Assigns
His Men and Throws Open the
New Stations.

READY FOR ALL FIRES NOW

Residents of Paducah awoke this morning with perhaps the most complete fire protection of any city of Paducah's size in the country.

This is the result of the insurance men's action several months ago when they decided the fire fighting facilities here were not adequate, and recommended improvements which were not at first provided by the municipal boards. The insurance men ordered the insurance rates increased by the "pink slips" and better facilities have followed.

The new trucks, which were delayed at the factory, arrived the fore part of the week and the installation of the machines, men and horses to man the station, was hastened in order to have everything ready by the first of the month.

Fire Chief Woods yesterday afternoon assigned his men to the stations as follows:

CENTRAL STATION.

Jon Collins, captain; John McFadden and J. W. Harvey, drivers; Will Husbands, Will Haffey, Sam Everts, Ike Hollowell, Morris Ingram and Sid Gilbert, truckmen.

STATION NO. 2.

Corner Fourth and Elizabeth streets—Tom Glenn, captain; St. Green, driver; Charles Eiter and Henry Robinson, pipemen.

STATION NO. 3.

Corner Tenth and Clay—John Slaughter, captain; A. M. Dustin, driver; Moss Council and Noah English, pipemen.

STATION NO. 4.

Corner Tenth and Jones—Jack Elliott, captain; Harry Allen, Guy Rodolph, drivers; Charles Block, pipemen; Len Cochran, French Shemmaker and Will Craft, truckmen.

Chief Woods was busy this morning making inspections of the stations and getting matters properly shaped. The alarm apparatus was inspected and every precaution taken to have everything working. The departments are now ready for business and prepared to fight fires of all kinds.

In regard to the inspection of the departments, nothing definite has been heard other than that the underwriters will visit Paducah as soon as possible.

CAIRO MAN

GETS INTO IT BAD IN DEMOCRATIC CONVENTION.

The Democratic senatorial convention for the fifteenth district, in Southern Illinois, held over at Jonesboro, resulted in a rough house.

Delegates from Franklin and Alexander counties, who did not approve of a motion being out of order, attempted to forcibly eject the chairman and a fight resulted, in which Judge W. H. Hart of Benton, candidate for presidential elector of the 25th district, received a very bad cut over the right eye. There was great confusion, and after the convention was adjourned warrants were sworn out charging Judge Hart, Ben Price and Delegate Powers of Cairo with rioting. They were held to bail in the sum of \$600.

After order was restored in the convention the remaining delegates nominated S. B. Esby of Benton for senator and W. W. Williams of Herrin and A. M. Brownlee of Benton for representatives.

There is much bad feeling among the delegates.

NEW CLERK

MR. J. D. HEAVIN, OF EVANSVILLE, ILL., SENT TO HENDERSON.

COMING TO PADUCAH

BRANCH OF THE FAMOUS
DRAUGHON'S
Practical Business Colleges

The Paducah School Will be School
No. 14.

Paducah has never been more fortunate in securing a new enterprise than when Prof. J. E. Draughon, president of Draughon's chain of Practical Business Colleges, decided to open a branch school in Paducah at 312, 314 and 316 Broadway about Sept. 15th. Halls are now being remodeled at cost of several hundred dollars.

Associated Prof. Smith's School.

The first one of Draughon's Practical Business Colleges was established fifteen years ago. This chain of schools was merged into a stock company during the past year with a capital stock of \$300,000. The stock is principally owned by business men, and the schools are endorsed by business men from Maine to California. Fourteen bankers are on the company's board of directors. It already has schools located in the following cities: Nashville, Tenn., St. Louis, Mo., Atlanta, Ga., Columbia, S. C., Montgomery, Ala., Little Rock, Ark., Shreveport, La., Oklahoma, O. T., Ft. Worth, Texas, Galveston, Texas, Ft. Scott, Kan., Kansas City, Mo., and Knoxville, Tenn.

Should Encourage the Enterprise.

The people of Paducah should encourage this enterprise. It will not be an institution for local students alone but it will draw hundreds of students to Paducah every year and bring to Paducah many thousands of dollars which would not otherwise come. Over FIVE THOUSAND students attend Draughon's chain of Colleges each year.

The company mails over two million pieces of advertising matter throughout the United States every year on which matter the names and addresses of Draughon's Colleges are given. This will, in many ways, advertise Paducah as well as other cities where these schools are located.

The Mayor of Nashville Says:

A. S. Williams, President City Savings Bank and Mayor of Nashville, says: "Prof. J. E. Draughon, president and founder of Draughon's Colleges, has been doing his banking with us for 15 years. We have found him prompt in meeting his obligations, fair in his dealings, courteous in his demeanor, and a man of the strictest integrity and most wonderful energy and vim. We do not believe there is a person in Nashville of greater energy than he. His success in every respect in conducting business colleges has been REMARKABLE. We take pleasure in recommending him as a man of fine business capacity and worthy of trust."

Those who desire catalogues before the school opens should address Draughon's Practical Business College, Nashville, Tenn., or see Prof. Jno. D. Smith, Paducah, Ky. Special inducements will be given those who enroll on or about the opening of the school.

A CARD

FROM PROF. JOHN D. SMITH, JR., WHO HAS DISPOSED OF HIS COLLEGE.

To the Public:

I take this method of informing the public that I have sold my Business College and good will to the Draughon Practical Business College Co., which company will assume charge of my college in Paducah on or about September 15.

I have for several years known of Draughon's chain of business colleges, and know that they are schools conducted upon a high plane, and give a high grade of instruction. I recently visited the home office, Nashville, Tenn., and made personal investigations. I will be financially interested in Draughon's chain of colleges.

I thank the public for its liberal patronage, and take pleasure in recommending Draughon's Business College to the public, and feel that I have done much for Paducah by reason of being instrumental in securing for Paducah a link of the Draughon chain of colleges which have a national reputation.

CAPT W. C. CLARK

IS OPPOSED TO A CHANGE OF
THE STATE CAPITOL SITE.

Representative W. C. Clark, of Paducah, does not take any stock in the effort to move the State Capitol site.

"I say," he declared to a reporter, "that the state capitol should stay right where it is, and has been for so many years. If the architect employed to design the new building can't build it on the present site, let them get someone who can."

There has been talk of an extra session of the legislature to change the site, but it will probably amount to nothing.

ANNOUNCEMENTS.

For Congress.
Hon. J. C. Speight, of Graves
County.

DAILY THOUGHT.

Cultivate the spirit of contentment; all discontent and dissatisfaction bring age-furrows prematurely to the face.

THE WEATHER.

For Kentucky, showers tonight and Friday. Slightly cooler.

GREATEST BATTLE IN HISTORY.

The battle now in progress around Liao Yang is conceded to be the greatest in the world's history. Of all the sanguinary conflicts of history, including the bloody engagements of the civil war, none equalled in number of men engaged, or in deadly equipment, this battle raging in the far east. It is estimated that half a million men are engaged, and while this may be to some extent an exaggeration, it is certain that never before did two such gigantic armies meet. If the struggle is not in proportion to the number engaged, it will be because of the carefully prepared defenses. The enormous cost of such a battle can only be conjectured. Thousands of pounds of powder and lead and steel are being consumed, and doubtless much of it wasted. The result of the battle is being awaited by the entire world, and whatever it is, the terrible loss of life and destruction of property will not have been in vain if it arouses in man an antipathy to war, that relic of barbarism which it seems the highest civilization cannot shake off.

The mayor should see that the city is not imposed on. The people are looking to him to protect the interests of the public, and do not expect him to give away or allow anything given away, that belongs to the people. The city compromised with the telephone company for \$3,000, and this \$3,000 belongs to the city—the people. Before the mayor and general council give anyone \$1,250 of it for "collecting" it, they had better examine the contract on the subject, and see just what it is that the city agreed to pay fifty per cent for collecting. The proposition made by the law firm and accepted by the city is clear, and is on file in the city clerk's office. If the city agreed to pay fifty per cent for collecting "pole rents" and this \$3,000, which is a compromise made by the city and not a "collection," making it virtually the general council that put it through, is not for "pole rent," it is plain that no one is entitled to \$1,250 of it. No one was authorized by the city to settle or collect for licenses, franchise taxes and other things, and if such has been done, it has been done voluntarily, and without stipulation of any fee or compensation.

If reports are true, Mr. Bryan is one of the best friends the republicans have in this campaign. Wherever he speaks reports follow of his half-hearted ap-

peals for the democratic ticket and of the feeble enthusiasm which results. One correspondent at Nevada, Mo., after Mr. Bryan spoke there Tuesday, said: "The general impression of the address was of a speaker pleading with the people to do something he knew they didn't want to do, and which he did not care particularly whether they did or not, the speech clearly being a labored one and delivered more as a matter of duty than a desire."

This is no more than might be expected. Why should Mr. Bryan want a democratic ticket advocating principles he opposed for eight years elected, when he, as candidate for the same party, was twice defeated?

It is not known what is back of the move to change the state capital site, but there must be something other than the laudable desire to improve the location. The only reason offered is that the present site is not large enough and this reason becomes ridiculous when it is remembered that the state capital at Albany, N. Y., is on a smaller site, and if New York can get her state capital into the space, Kentucky ought to manage it somehow.

Kentucky seems to be enjoying a good slice of prosperity. A report from Washington states that the national banks are better prepared to meet all demands on them for the next two years than they have been for some time, and the state makes a similar report regarding the state banks. There is good business everywhere, and the fall rush is not on.

POLICE COURT

JUDGE SANDERS DISPOSED OF
A NUMBER OF OFFEND-
ERS TODAY

Connico Djourensanie is the name of an Italian who was last night picked up on the streets in a very drunken condition. The police could not ascertain his name last night on account of his condition and while his tongue was thick today he managed to tell the judge what he is generally called. He got \$1 and trimmings.

Will Arnold was dismissed of the charge of breach of the peace.

Fred Smith got a little too much red eye on and caught hold of a woman on the street. He got a fine of \$30 and costs for disorderly conduct.

On motion of the prosecuting attorney, the warrant charging breach of the peace, against Claude Jones, was filed away.

The case against Charles Arnold and Georgia Williams charging disorderly conduct, was continued.

Arthur Clark, charged with presenting a pistol at Neil Pope, on West Kentucky Avenue, was left open. It is said he was drinking when the alleged offense was committed.

Armando Karnea, Lena Feers, George Hudson and Robert Johnson, were charged with being drunk and disorderly. The former was fined \$20 and costs and the latter three dismissed.

DELTA LEAGUE RESULT.

The Clarksdale, Miss., team in the Delta League won the pennant. Gaston, formerly with Jackson, Tenn., is pitcher, fielder and manager of the successful team, and a number of other K. I. T. players, including Willie Le-compte, were with the team this season. It won 65 games and lost 30, its per cent being .684.

The local L. C. wrecker has returned from the Louisville division, where it has been working on several derailments. The derailments amounted to little and the damage to the road is light.

Mr. C. A. Thurman went to West Point today at noon on a visit to relatives.

MONTH OF AUGUST
SHOWN IN REPORTS

The Police Made Nearly Two
Hundred Arrests.

Very Few Deaths In Paducah, and
the Fire Losses Were Re-
markably Small.

THE WORK OF THE MONTH

The record of the Paducah police department for the month just closed was a good one, the books showing 198 arrests, 105 white males and 17 white females, 45 colored males and 11 colored females. The charges listed were as follows: Robbery 2; horse stealing 1; house breaking 5; false swearing 1; grand larceny 5; obtaining money by false pretense 4; shooting with intent to kill without wounding 1; petty larceny 11; concealed weapons 12; disorderly house 11; disorderly conduct 21; breach of the peace 42; drunk and disorderly 13; drunkenness 31; shooting in city limits 2; vagrancy 4; insulting language 2; breach of ordinance 5; riding on box car 1; held for investigation 3; pointing pistol 1; immorality 6; fugitive 2; escaped from city prison 1; suspects 5.

The fire departments during the month of August made 18 runs, none of them on false alarms, which is unusual. There were few fires of any consequence, however, and the loss is small.

The local Illinois Central hospital report shows a marked decrease in the number of patients admitted for the month of August from the same month one year ago, the sickness among employees being generally less than last year.

"Health among the employees of the Illinois Central on the district embraced by those having hospital privileges, has been very good of late," a hospital physician stated this morning, "and our reports are very satisfactory. We had no deaths in the hospital last month."

The hospital reports show admitted during August 1904, a total of 127 patients, two thirds being white, while this month, 1903, shows only 43 admitted and at present there are but 45 in the hospital.

During the month of August there were comparatively few deaths in Paducah.

The records of the city clerk show a total of only nineteen burial permits issued, eleven colored and eight white. Last year there were many more deaths during the month of August and the mortality rate seems to be very much smaller. Nearly all the deaths in Paducah are on record in the city clerk's office, as he issues all permits for Oak Grove.

Stamp Deputy J. L. Behont had an ordinary month during August. His report shows collections amounting to \$6,370.96, with stamps issued for 908 barrels of whiskey.

During the month of August there were few marriage licenses issued in the county clerk's office. There were 7 colored licenses and 18 white, making a total of 25 licenses issued.

A dozen sewer permits were issued by Inspector Raser during August, which is a slight increase.

The total number of patients at the city hospital at present is six, all white. The hospital had few patients last month and only one death occurred.

City Engineer L. A. Washington issued fifteen building permits for the month of August. The permits run from small frame house to large brick stores and August was quite a good month in building circles.

TELEGRAPH OFFICIALS HERE.

Superintendent of Telegraph J. V. Groce and his assistant, Mr. W. E. Weeks, left at noon for the Louisville division of the road to look after the improvements in the telegraph service. They will look over the division and probably put in telephones with high potential transmitters, using the small wire on the telephone which heretofore was inadequate.

Democratic Ghost Stories.

Louisville Herald
The Democratic press, to keep up the courage of that section of the party which indorses the Parker rape of the presidential platform, presents figures taken from Spiritland. What are the facts? The electoral college now consists of 476 votes. It takes, therefore, 239 to elect. The probably sure Democratic states are:

Alabama.....	11	Missouri.....	18
Arkansas.....	9	North Carolina.....	12
Florida.....	13	Tennessee.....	10
Georgia.....	13	South Carolina.....	12
Kentucky.....	13	Texas.....	18
Louisiana.....	9	Virginia.....	12
Mississippi.....	10		

Total	151
The sure Republican states:	
California	10
Connecticut	7
Delaware	3
Illinois	27
Indiana	13
Iowa	13
Kansas	10
Maine	6
Massachusetts	16
Michigan	14
Minnesota	11
Nebraska	8
New Hampshire	4
New Jersey	12
North Dakota	4
Ohio	23
Oregon	4
Pennsylvania	34
Rhode Island	4
South Dakota	4
Utah	3
Vermont	4
Washington	3
Wyoming	3

Total..... 244

The doubtful states are:
Colorado..... 5 New York..... 39
Idaho..... 3 Nevada..... 3
Maryland..... 8 West Virginia..... 7
Montana..... 3 Wisconsin..... 13

Total..... 81

Giving all these doubtful states to the Democrats they would still lack seven votes necessary to win. But what is there to justify the belief that any of these states will vote the Democratic ticket? Colorado in 1903 elected a Republican justice of the supreme court by a plurality of 7,586. Idaho elected in 1902 a Republican governor by 3,853, and the legislature is Republican by 23 on joint ballot. Maryland in 1903 elected a Democratic governor by 12,025. But the Republican plurality was in 1890 32,224, and in 1894 13,941. The Republicans, besides elected in 1902 four out of six congressmen. The state is therefore very doubtful.

Montana, for justice of the supreme court, went in 1902 Republican by 10,486. The legislature is Republican on joint ballot by 22. New York, with the sole exception of the accidental election of Alton B. Parker as chief justice of the court of appeals in 1897, has not since 1892 gone Democratic at any election, presidential or gubernatorial. McKinley's plurality in 1904 was 143,000. The legislature of the Empire state is Republican on joint ballot by 51. Nevada is a silver state, it elected in 1902 a free silver governor by 17,143. Will it vote in 1904 for a gold standard presidential candidate? West Virginia has not since 1892 given a Democratic plurality for president or governor. McKinley's plurality of 11,393 in 1896 was increased to 21,922 in 1900.

The legislature of West Virginia is solidly Republican by a majority of 40 on joint ballot. Will West Virginia in 1904 renounce her record of ten years of Republican loyalty? As for Wisconsin, it is enough to point out that McKinley's plurality of 102,612 in 1896 was advanced to 103,656 four years later. Governor La Follette, correctly described as a Republican Bryan, may take some votes out of the Republican column, but gains from Democratic ranks will offset these.

Wisconsin, will, at any rate, under the fine leadership of United States Senators Spooner and Charles, remain firm in allegiance to the party, that has given its forests, fields, farms, factories and mines the development which has so abundantly enriched the state.

WORKING TEN HOURS NOW.

This morning the 10 hour work day went into effect at the local railroad shops. The men were all smiling as a reporter made his way through the shops, and are satisfied. This will be maintained until the days become so short that the hours have to be lessened.

ABILENA

Abilena is a natural water. It holds in solution salts dissolved from natural deposits in the earth. It is Nature's cathartic compound—a natural mineral water. Mineral waters are recognized everywhere as the most efficient, as well as the least injurious, cathartics. Abilena is the best mineral water on the American market. It is The American Natural Cathartic. The discovery of Abilena was a simple revelation of nature. For a long time after the first well was dug, the water, being unfit for domestic purposes, was cut out at all. Fractious tests afterward disclosed its medicinal properties and the report of its virtue was rapidly disseminated. Finally several chemists analyzed the water and the results manifested its great therapeutic value and precluded its future renown. Sold only by

Theatrical Notes.

Gileson Georgia Camp Meeting, a new and original offering made up entirely of colored artists and jingling with merry tunes of the sunny south, will be the attraction at the Kentucky for one performance only on next Tuesday evening and of which a recent team of the Dallas News has the following complimentary remarks: "A Georgia Camp Meeting, another name for a pleasing mixture of farce, musical comedy and minstrelsy, was enthusiastically received by two large houses yesterday matinee and last night and from the overwhelmingly hearty reception given it is very clearly evident that this is by far the best colored attraction ever seen here. Alice Clarke, one of the principals, is a singer with a wonderful voice and makes the very best use of it. Another feature was the introduction of the most wonderful colored singing and dancing choruses ever seen here."

Miss Blanche Bockner, who has made such a pronounced success in the "Isle of Spice," recently transferred from Boston to New York, has retired for a much needed rest, and Miss Helen Frederick, formerly prima donna with the "Prince of Pilsen" Company, has taken her place.

The McDonald Stock Company, occupying the boards at The Kentucky, continues to draw large houses. The plays put up are all good, entertaining, and wholesome and the patronage is highly pleased with them. The members of the cast are exceptionally good and well up in their lines. The company is not newly organized one but has been working together for some time.

One feature of the show is the illustrated pictures and the specialties. Of all companies making week stands the McDonalds have possibly the best repertoire of plays and the most pleasing specialties. The company holds for three more days.

The show at Wallace Park is drawing good crowds. The shows are

free and the company is a strong one, having just closed in Chicago and the class of plays are far above the average summer stock company. The free admittance arrangement will continue the remainder of the week.

"Niobe," in which Miss Edna Farrell was to play the leading part, will not be put on at the park tonight, on account of the illness of the leading man.

NOW ABANDONED

FORMER DISPATCHER'S OFFICE CLOSED AND BOARDED UP.

This morning carpenters "boarded" up the old dispatching office lately abandoned by the dispatchers and trainmaster and the building will remain so unless converted into a dispatching office again, which is very improbable.

Every window and door in the building was closed by heavy boards and the screens and glass were taken out and everything of value removed from the building. This method is adopted by the road when a building is discarded. It serves to keep the property better, the boards keeping the weather out.

Mrs. J. P. Smith and children will return Saturday from Alexander Springs, Minn., where they have been spending the summer.

James Weldon, of South 11th, was painfully hurt yesterday afternoon by a fall on the streets. Dr. Duley attended him.

Dr. J. W. Pendley is out again after a several days' illness, and is again looking after his practice.

The new journal to be published by Messrs. James P. Thompson and Henry E. Thompson will make its appearance in about ten days and will be named "The Farm and Store." It will contain 10 pages of interesting reading matter.

Mr. Sam Jackson, one of the popular druggists of Hot Springs, Ark., will arrive in Paducah shortly on a visit to his parents, Mr. and Mrs. Geo. Jackson. He is off on a several weeks' vacation and yesterday arrived in New York from Galveston, Tex., making the trip by steamer.

According to report Mr. Joe Miller the dairyman, will shortly come to the city and start a dairy stable. He is now residing in Arcadia.

Don Gilberto will be ready to open his new saloon the "White Doe," on South Fourth street, in about three weeks. The exterior of his place is as attractive as a circus tent.

The city's building committee, which has never selected plans from those recently submitted, will hold a meeting Friday night to take up the matter again. The meetings were adjourned over to await the return of Mr. Ben Weller, who has been east.

Preparations for the Woodmen's Carnival continue and everything will be ready by Monday. Mr. George Willow will have charge of the German Village. The enclosure is about finished and the attractions will be here on time.

Tobacco sales in Paducah yesterday amounted to about \$25,000, and there is much promised activity among the buyers.

The children of the German Lutheran church are enjoying a picnic today out near Wallace park, with a large crowd in attendance. Nothing is being spared to make it a most delightful outing for the little folks.

Mr. Leslie E. Stephon, son of Phil Stephon, is preparing to start a drug store at Ninth and Kentucky avenue, and will have one of the finest outfits in the city. He is now waiting on the fixtures.

Social Notes and About People.

Neighbors, Martin Sullivan, Van Cole, Edgar Bender, Leo Boaz, Joe Wright, Will Goad, Russell Buchanan, Orin Johnston, Mr. and Mrs. Sam Buchanan.

MARRIED THIS AFTERNOON.
This afternoon at 1 o'clock Mr. J. Robert Caldwell, the well-known insurance and real estate man, and Mrs. Minnie Shutt were married at the residence of the bride on North Fifth street, near Madison.

The wedding was a quiet affair, only a few of the couple's most intimate friends being present. The ceremony was performed by Rev. W. H. Pinkerton, of the First Christian church, and at 2:30 the couple left for Bowling Green, Mammoth Cave and other points in Kentucky on a visit.

The groom is a well-known and popular business man, a brother to Col. R. G. Caldwell and recently succeeded to the firm of R. G. Caldwell, Son & Co. Mr. Caldwell is an energetic business man with the confidence of all, and his bride is a well known and popular lady who has lived here several years.

The couple will return to Paducah in a few weeks and reside at the residence of the groom. Mr. Caldwell will remove his office from the Fraternity building to the Register building after his return.

DANCE AT THE PARK.

GOODWIN COMES

STAR TWIRLER FOR VINCENNES TO PITCH THIS AFTERNOON.

Clyde Goodwin, the star twirler of the Hoosier staff, arrived this morning from Clarksville and this afternoon donned a Redskin uniform and has his war headgear on.

Goodwin has not pitched since Sunday when he put Catcher Lemon out of the game, and is in prime condition. Goodwin is doing the pitching for the Ray aggregation this afternoon, and Wilder is throwing for the Parasites.

Tomorrow Bonno, The Invincible, goes in. This being ladies' day the handsome Italian will doubtless receive an ovation. Bonno is energetic and wants to work and when he has a had inning never gets out, but pitches all the harder.

STABLE BURNS TO GROUND.
The No. 1 and No. 3 fire companies were called to the residence of Ed. Eaker at 12th and Bernheim avenue this morning at 10:30 to extinguish his stable which was afire.

The stable was filled with loose hay and was burned to the ground. Both departments had a good run, but could do nothing with the tinder box. The damage amounts to several hundred dollars.

98 TODAY.

There seems to be plenty of heat in old Sol yet. Yesterday was quite warm, and today the maximum was 98 in the shade, according to Government Observer Hornemann.

ANOTHER CHAINSAW SET.
C. Smith has filed a suit against the city for \$10,000 damages through Attorney J. M. Worren.

The suit alleges he was fined \$30 and costs for a breach of the peace and made to serve it on the chainsaw.

DEATH IN COUNTY.

Mrs. Rebecca McDaniels, aged 60, died at Florence Station, leaving a husband and one son. The funeral took place this afternoon.

—The Ladies Mite Society of the First Baptist church will meet Friday afternoon at 4 o'clock at the residence of Mrs. Herman Graham, 1301 Jefferson street.

—There seems to be an epidemic of it in the city at present, and many doctors are writing prescriptions for cures.

—With an entire new stock the Scott Hardware Co., will open its retail store on Broadway in a few days.

Science Destroys Rats and Mice.

Many readers of this paper have been greatly annoyed the last month or so with an unusual number of rats and mice, or both. Traps have been of no avail in ridding them of these pests. We are glad to tell them that science has discovered a means of driving rats and mice from the house to die. This is Stearns' Electric Rat and Roach Paste. Its sale has been remarkable, and it never fails. If you cannot get the Paste of your dealer, write direct to the Stearns' Electric Paste Co., Tribune Building, Chicago, Ill., and it will be sent to you express prepaid on receipt of price. It is easy to use, and rids the house of rats, mice, cockroaches, etc. Small size, 25c; Hotel size, eight times the quantity, \$1.00. 30.

ACCEPTS GOOD POSITION.

Mr. J. W. Worrell, who has been clerking temporarily at the New Richmond to help his friend, Colonel Bud Dale, today accepted a position with the Gilbert Tobacco Company, of Murray, Ky., as a traveling salesman. Mr. Worrell has been a resident of Paducah for several years, and was formerly president of the college of telegraphy here. He is a popular man with many people in this end of the state, and the Murray concern could not have made a better selection to securing a first class traveling salesman.

PADUCAH BREWERY CO. Paducah, Ky.

TO FAR OFF ALASKA YOU CAN TELEGRAPH

Messages May Now be Sent From Paducah.

Wonderful Strides Made Within the Memory of Mr. J. R. Coburn, the Veteran Telegrapher.

THE NEW CABLE COMPLETED

Mr. J. R. Coburn, of the Postal Telegraph Company, is one of the oldest living telegraphers. For many years he has manipulated the key, and remembers when telegraphy was little more than an experiment, and lines were short and tolls were high. Now he can sit in his office on Broadway within a stone's throw of where he has worked for thirty-two years, and flash a message to Alaska, and the price is not as much as it was in his younger days to telegraph from Paducah to St. Louis, Chicago or New Orleans.

The toll on messages to Alaska has been cut down to such a point that it is possible for men with friends and representatives in Sika, Juneau, Haines, Mission and Skagway to correspond with them over the wires without "going broke." The Postal Company has just announced that messages will be received for transmission over the government cable between Seattle and Sika at low rates and that there will be cuts all along the line. Until recently it required months to communicate with persons in our far off northwestern possessions, and the ability to do it now and get an answer in a few hours shows what rapid strides are being made by the men of modern times.

Manager J. B. Allen, of the Postal, says that a person can now telegraph from Paducah to Alaska for less than \$2. Mr. Coburn states that when he first began telegraphing 37 years ago, it cost \$2.50 to telegraph to New York, and almost \$1 to send a few words from Paducah to Louisville.

The new government cable to Alaska is the first telegraphic connection established with that territory. Telegrams heretofore could be sent a part of the way, but had to be carried by mail or carrier the remainder.

ABSCESSES.

W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a still leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world."

ABSCESSES, with few exceptions, are infectious of constipation or debility. They may, however, result from blows or from foreign bodies, introduced into the skin or flesh, such as splinters, thorns, etc.

DESKS EXPECTED

Janitors at School Buildings Hard at Work Today.

Examinations to Be Held Next Week —Franklin Building to Be Ready When New Desks Come.

On account of the confusion of preliminary school work, the examinations of pupils at the High school will be held next week and on Friday the teachers will meet for instructions.

This morning all janitors were put to work cleaning the school buildings and getting the rooms in shape for the opening of school the 12th.

The desks from the seventh and eighth grades in other buildings have been removed to the High School and will be immediately put down. The new desks have been delayed and are not here, but are expected today or tomorrow. They will be put down on arrival and all delays avoided.

The Franklin school is not ready for opening and will not be until the new furniture arrives. This is the building entered by boys and the clocks, desks and equipment sadly demolished.

HICKS ON SEPTEMBER.

A secondary storm period, beginning the last two days in August, will last into the first and second days of September, storms having moved into central to eastern parts by the first and second.

The storm period beginning on the fourth and extending to the tenth promises to bring many prolonged and severe perturbations.

The disturbances at this time will at most certainly be aggravated in character, and prolonged, with possibly very slight intermission, into and through the reactionary storm period central on the 11th and 12th.

During the early stages of these early disturbances, an excessively high temperature, or heated term, is sure to make its appearance over most parts of the country.

We predict that Wednesday the seventh, to Saturday the tenth, will bring a decided crisis showing that equinoctial hurricanes of great extent and violence are near, if not sweeping our southern coasts, or that phenomenal heat over the interior covering the greater part of the country will be culminating in low barometer, thunder storms and possible tornadoes in many places. If hurricanes and marked barometric depressions reach our south early in this period very cool northerly winds will flow southward over all central and western states, followed by "backing winds," that is, shifting from east to north, northwest and west—attended by several days of dogged, persistent cold rains. We believe that the equatorial cyclones and hurricanes will delay their approach to our southern coasts long enough to cause a severe heated term during the first half of the month, or until severe storms on and touching the 11th and 12th. Earthquake and volcanic phenomena will be reported from various parts of the globe on and about the ninth.

Northerly currents will induce marked local conditions over western and central sections, bringing frosts to northern states not far from the 12th to the 15th. The next regular storm period extends from the 16th to the 21st. Whatever character of storms are in progress during the period, 16th to 21st, Sunday the 18th, to Wednesday the 21st, will bring the edifying crisis of the period.

A regular Vulcan storm period is central on the 20th, extending from the 27th, two or three days into October. As we enter this period the temperature will again rise to quite warm, and scattering storms will be advancing eastward over the country about the 20th and 26th.

In all we have said about the probability of hurricanes and high equinoctial storms and gales in September, we must not be understood as forecasting things out of the ordinary. We mean no such things. We do say that storms of decided energy will be perfectly natural, but there is nothing in the astronomical outlook to excite fears of more than ordinary phenomena.

SEPTEMBER WEATHER.

The Louisville weather bureau has sent out an advance date of September conditions that have prevailed in Kentucky for the past 33 years. They are not issued as a forecast.

The mean temperature during September has been 70 degrees. The warmest September was in 1881 with an average of 77 degrees and the coldest in 1879 with an average of 65 degrees. The highest temperature recorded was in September 6, 1899, when 102 degrees was registered and the coldest was September 30 of the same year when a minimum of 50 degrees was reached. The earliest date on which a killing frost has occurred was September 24, the average date being October 29.

The precipitation in September has averaged 2.65 inches. The greatest monthly precipitation was in 1884 when 5.90 inches of rain fell and the least was in 1883 when but .37 of an inch fell.

No snow has ever fallen in September.

The average number of cloudy days during September is seven, the average number of partly cloudy days ten, and the average number of clear days thirteen. The prevailing winds have been from the north with an average hourly velocity of 6.2 miles. The highest velocity of the wind recorded in September was forty-eight miles from the west on September 15, 1898.

Moran of the Lady Letty

By
**FRANK
NORRIS.**
Author of "The Octopus," "The Pit," Etc.
Copyright, 1898, by
S. S. McClure Company

"I wonder what Charlie and our China boys will think of this?" said Wilbur, looking shoreward, where the deserters could be seen gathered together in a silent, observing group.

"We're well shut of them," growled Moran, her thumbs in her belt. "Only now we'll never know what was the matter with the schooner these last few nights. 'Tch!'" she exclaimed under her breath, her scowl thickening. "Sometimes I don't wonder the beasts eat."

The dead whale was lying four miles out of the entrance of Magdalena bay, and as the junk and the schooner drew near seemed like a huge black boat floating bottom up. Over it and upon it swarmed and clamored thousands of sea birds, while all around and below the water was thick with gorging sharks. A dreadful, straining, deadly foiled all the air.

The whale was a sperm whale and fully twice the length of the Bertha Miller. The work of tricing him up occupied the beachcombers throughout the entire day. It was out of the question to keep them off the schooner, and Wilbur and Moran were too wise to try. They swarmed the forward deck and rigging like a plague of unclean monkeys, climbing with an agility and unblinking that made Wilbur sick at his stomach. They were unlike any Chinamen he had ever seen, hideous to a degree that he had imagined impossible in a human being. On two occasions a fight developed, and in an instant the little hatchets were flashing like the flash of a snake's fangs. Toward the end of the day one of them returned to the junk scowling like a stuck pig, a bit of his chin bitten off.

Moran and Wilbur kept to the quarter deck, always within reach of the huge cut-throat knives, but the Chinese beachcombers were too elated over their prize to pay them much attention.

And indeed the dead monster proved a veritable treasure trove. By the end of the day he had been triced up to the foremast, and all hands, straining at the winches, had raised the mighty head out of the water. The Chinamen descended upon the smooth, black body, their bare feet sliding and slipping at every step. They held on by jabbing their knives into the hide, as glacial climbers do their ice picks. The head yielded barrel after barrel of oil and a fair quantity of bone. The thud was taken aboard the junk, untraced up with hatchets and run into casks.

Last of all, a Chinaman cut a hole through the "case" and, actually descending into the inside of the head, stripped away the spermaceti, clear as crystal, and packed it into buckets, which were hoisted up on the junk's deck. The work occupied some two or three days. During this time the Bertha Miller was keeled over to nearly twenty degrees by the weight of the dead monster. However, neither Wilbur nor Moran made protest. The Chinamen would do as they pleased. That was said and signed. And they did not release the schooner until the whale had been emptied of oil and blubber, spermaceti and bone.

At length, on the afternoon of the third day, the captain of the junk, whose name was Hoang, presented himself upon the quarter deck. He was naked to the waist, and his bare brown torso was gleaming with oil and sweat. His eye was cold like a snake around his neck, his hatchet thrust into his belt.

"Well," said Moran, coming up.

Wilbur caught his breath as the two stood there facing each other, so sharp was the contrast. The man, the Mongolian, small, weathered, leather-colored, secretive—a strange, complex creature, steeped in all the obscure mystery of the east, nervous, ill at ease—and the girl, the Anglo-Saxon, daughter of the northmen, huge, blonde, big boned, frank, outspoken, simple of composition, open as the day, bareheaded, her great ropes of sandy hair falling over her breast and almost to the top of her knee boots. As he looked at the two Wilbur asked himself where else but in California could such abrupt contrasts occur.

"All right," announced Hoang. "Catchum all oil, catchum all bone, catchum all some plenty many. You help catchum, now you catchum pay. Sale?"

The three principals came to a settlement with unprecedented directness. Like all Chinamen, Hoang was true to his promise and had already set apart three and a half barrels of spermaceti, ten barrels of oil and some twenty pounds of bone as the schooner's share in the transaction. There was no discussion over the matter. He called their attention to the discharge of his obligations and hurried away to summon his men aboard and get the junk under way again.

The beachcombers returned to their junk, and Wilbur and Moran set about cutting the carcass of the whale adrift. They found it would be easier to cut away the hide from around the hooks and loops of the tackle than to unfasten the tackle itself.

"The knots are jammed hard as steel," declared Moran. "Hand up that cutting-in spade; stand by with the other and cut loose at the same

time as I do, so we can ease off the strain on these lines at the same time. Steady there, cut!" Moran set free the hook in the loop of black skin in a couple of strokes, but Wilbur was more clumsy; the skin resisted. He struck at it sharply with the heavy spade. The blade hit the iron hook, glanced off and opened a large slit in the carcass below the head. A gush of entrails started from the slit, and Moran swore under breath.

"Ease away, quick there! You'll have the meat out of her next—steady! Hold your spade—what's that?" Wilbur had nerved himself against the dreadful stench he expected would issue from the putrid monster, but he was surprised to note a pungent, sweet and spicy odor that all at once made thick the air about him. It was an aromatic smell, stronger than that of the salt ocean, stronger even than the rank of oil and blubber from the schooner's waist-awar, delicious as a summer breeze.

"It smells pretty good, whatever it is," he answered. Moran came up to where he stood and looked at the slit he had made in the whale's carcass. It was bulging some kind of dull white matter marbled with gray. It was a hard lump of irregular shape and about as big as a hoghead.

Moran glanced over to the junk, some forty feet distant. The beachcombers were hoisting the lug sail. Hoang was at the steering oar.

"Get that stuff aboard," she commanded quietly.

"That?" exclaimed Wilbur, pointing to the lump.

Moran's blue eyes were beginning to gleam.

"Yes, and do it before the Chinamen see you."

"But—but I don't understand."

Moran stepped to the quarter deck, nudging the hammock in which Wilbur slept and tossed it to him.

"Heave it up to that. I'll pass you a line, and we'll haul it aboard. God send, those vermin yonder have got smells enough of their own without noticing this. Hurry, mate. I'll talk afterward."

Wilbur went over the side and, standing as best he could upon the slippery carcass, dug out the lump and hauled it up to the hammock.

"Ho!" exclaimed Moran, with sudden exclamation. "There's a lot of it. That's the biggest lump yet. I'll be bound. Is that all there is, mate? Look carefully." Her voice had dropped to a whisper.

"Yes, yes; that's all. Careful now when you haul up. Hoang has got his eye on you, and so have the rest of them. What do you call it anyhow? Why are you so particular about it? Is it worth anything?"

"I don't know, perhaps. We'll have a look at it anyway."

Moran hauled the stuff aboard, and Wilbur followed.

"Winw!" he exclaimed with half-closed eyes. "It's like the story of Samson and the dead lion—the sweet coming forth from the strong."

The schooner seemed to swim in a bath of perfumed air. The membrane of the nostrils fairly pringed with the sensation. Moran unloosed the hammock and, going down upon one knee, examined the lump attentively.

"It didn't seem possible," Wilbur heard her saying to herself, "but there can't be any mistake. It's the stuff, right enough. I've heard of such things, but this—but this"—She rose to her feet, tossing back her hair.

"Well," said Wilbur, "what do you call it?"

"Set a Thief to Catch a Thief"

(Original.)
"I don't like this trip, Archie, at this time especially, so soon after having been married. Besides, Carlotta knows no one here. I wish you'd do what you can for Carlotta while I'm gone."
"Certainly, Bob. Doesn't she know any one at all?"
"A few women and one man—that fellow Reynolds. I don't like him, and I should prefer to have you monopolize her time rather than that he should have a chance to do so."

"But, my dear boy, why not leave it to her?"
"She's young, unsophisticated and a woman. I don't believe in temptation for any one. How do we know that if you or I—"

"Rats! We're not women. I'd trust you or myself anywhere. But I'll do my best for you, old man."

Robert Young left on a two months' journey, and on the evening of his departure his bosom friend, Archie May, called on his wife. He had barely been seated when Mrs. Young raised a pair of mild blue eyes to his and said:

"Bob told me before he went away that I was to be guided in my necessities by you. I think you'd better tell me just whom to avoid."

"What a child!" thought May. "One would suppose I was her papa." Then he told her he would not presume to do such a thing.

"In very anxious," she said, "to conduct myself that you can conscientiously make a good report of me to Bob when he returns. If there is any one he would have me avoid I wish to know it."

May fenced with her for awhile, but she coaxed and teased till at last she got the secret out of him that Martin Reynolds was the man of all others to be avoided.

Now, there was nothing against Martin Reynolds except that he was a very attractive young man and a general favorite. May kept his promise to his friend to take care of his young wife by calling regularly three times a week. At the end of ten weeks the nights when he didn't call became a bore to him. Then one evening he called and found Reynolds in his place. May looked sternly at Mrs. Young, who explained that circumstances had led to Reynolds' visit and she couldn't have avoided inviting him without appearing unwell. May still appearing dissatisfied, she began to coax him not to blame her, at last begging him to excuse her with tears. That ended May's fatherly sternness, and he forgave her on condition that she discourage any further visits from the objectionable man. The coquetry between May and the lady was followed by a very happy reconciliation.

Ten days after this episode a friend of May's said to him:

"Seems to me Martin Reynolds is getting pretty thick with that little Mrs. Young."

"What makes you think so?"

"Well, my sister has been in to see her two nights during this week, and my cousin has been there another night. Reynolds has been there all three evenings."

May was startled. He had been to see his charge every alternate evening, therefore Reynolds must have been to see her on every other alternate evening.

When May went to see Mrs. Young again there was a scene. She admitted everything, but declared that she was a victim of circumstances. May was convinced that she needed protection from Reynolds, and his blood boiled to protect her. Mrs. May begged him not to tell her husband of Reynolds' attentions and managed to find an opportunity to bring in an admission that she infinitely preferred him (May) to Reynolds. This mollified May, and the danger from Reynolds seemed less terrifying. From this time very tender relations existed between May and his charge till a day or two before Robert Young's return. Then May and Reynolds met at Mrs. Young's, and she turned the cold shoulder on May, devoting herself exclusively to Reynolds. May deliberately insulted Reynolds by ordering him out of the house Mrs. Young, after vainly endeavoring to restore peace, begged them both to leave, which they did.

The next morning Mrs. Young hired a detective to watch the two men and report every movement. At noon he brought her in a report, and she sent him to a telegraph office with a dispatch for her husband, to which a reply was received that he would be at home by the midnight train.

At 3 o'clock the next morning he was awakened by his wife, and half an hour later they were in a carriage driving to the suburbs, the detective on the box. Just before sunrise they turned into a wood and soon came to an open space shut in on all sides by trees. A small party was there, including May, Reynolds, two friends and a surgeon. Mrs. Young held her husband back till May and Reynolds were placed facing each other with pistols in their hands, when she rushed forward and threw herself dramatically between them.

"What in thunder does all this mean?" exclaimed her husband, coming up.

"It means, Bob, dear, that the next time you go away and leave me in care of one of your fascinating friends to keep off one of your fascinating enemies you'd better put a watch on them to keep them from shooting one another. Come, gentlemen, this has gone far enough. Get into your carriage, and we will do the same. I've ordered a sumptuous breakfast to celebrate Bob's return, and we'll all go and eat it."
